

FISCMAC

Career Platform Product Cursor Specification

1. EXECUTIVE SUMMARY

FISCMAC is a physician career development platform designed to reduce cognitive burden through conversational AI coaching (Coach Mak), integrate career intelligence, and provide structured pathways across clinical, research, education, and leadership tracks.

2. COLOR PALETTE

Color	Hex	Use Case
Muted Black	#1A1A1A	Primary text, headers
Slate Gray	#475569	Secondary text, body
Slate Blue	#4F46E5	Links, primary CTAs
White	#FFFFFF	Backgrounds, cards
Lime Green	#A3E635	Success badges
Gold	#F59E0B	Warnings, milestones
Orange	#F97316	CTAs, energy alerts

3. DATABASE SCHEMA

Users Table

Column	Type	Description
user_id	UUID	Primary key
email	VARCHAR(255)	Email (UNIQUE)
name	VARCHAR(255)	Full name
specialty	VARCHAR(100)	Medical specialty
career_stage	ENUM	Student/Fellow/Attending
cv_uploaded	BOOLEAN	CV uploaded?
mempalace_id	UUID	MemPalace reference
created_at	TIMESTAMP	Account creation
last_active	TIMESTAMP	Last interaction

Career Assessments Table

Column	Type	Description
assessment_id	UUID	Primary key
user_id	UUID	User reference
touchpoint_number	INT(1-7)	Cadence touchpoint
question_category	ENUM	Energy/Burnout/Skills
questions_answered	JSONB	Q&A pairs
score	NUMERIC(0-100)	Computed score
completed_at	TIMESTAMP	Completion time

4. KEY FORMULAS

Assessment Score: $\text{Score} = (\text{Weighted Sum} / \text{Max}) \times 100$

5-point Likert scale (1=Strongly Disagree, 5=Strongly Agree); result 0-100 indicates career health/readiness

Career Readiness Index (CRI): $\text{CRI} = (\text{Assessment} \times 0.4) + (\text{CV Completeness} \times 0.3) + (\text{Pathway Clarity} \times 0.3)$

Example: 75 assessment + 100% CV + 80% pathway = $(75 \times 0.4) + (100 \times 0.3) + (80 \times 0.3) = 84$ CRI

Job Match Score: $\text{Match} = (\text{Specialty} \times 0.5) + (\text{Salary} \times 0.2) + (\text{Location} \times 0.2) + (\text{Growth} \times 0.1)$

Specialty Match: 1.0 if match, 0.7 if adjacent, 0.0 if unrelated

5. ONBOARDING FLOW (3-TIER)

Tier 1: Instant Value (<2 min) Specialty + Career Stage selection. Data: specialty, career_stage, user created

Tier 2: Contextualization (3-5 min) CV Upload + OCR parsing. Extract: institutions, years, skills. Store in MemPalace for Mak context.

Tier 3: Refinement (Optional) Goals, location, salary expectations, template selection, notification settings.

6. 7-TOUCHPOINT COACHING CADENCE

TP	Timing	Focus	Mak Role	Output
1	Day 0	Career stage, specialty	Welcomer	Clarity
2	Day 3	Background, achievements	Listener	Experience map
3	Week 1	Energy, burnout, invisible work	Coach	Wellbeing baseline
4	Week 2	Aspirations, values, vision	Mentor	Career vision
5	Week 3	Skill gaps, development	Advisor	Dev plan
6	Month 2	Job market, networking	Matchmaker	Job matches
7	Month 3+	Progress, accountability	Accountability	Progress review

7. API & INTEGRATIONS

MemPalace: POST /api/mempalace/store { user_id, conversation_summary, key_facts, preferences }

Retrieval: GET /api/mempalace/retrieve?user_id provides career_history, goals, challenges, preferences

Job Data Feeds: LinkedIn, Indeed, MedJobs (AAMC), Bureau of Labor Statistics, AAMC Workforce Data

Pipeline: Daily ETL → Deduplicate → Classify by specialty → Store in job_opportunities table

Document Templates: GET /api/templates?type={cv|resume|cover_letter|portfolio}

Response: { template_id, name, format, preview_url, download_url }

8. COACH MAK SPECIFICATIONS

Persona: Mentor, Coach, Sponsor combining active listening, reflective questioning, signal tracking, invisible work recognition, and sponsorship behaviors.

Guardrails: No medical advice. Flag mental health crises. Maintain confidentiality. Default to questions. Acknowledge scope limitations.

9. IMPLEMENTATION ROADMAP

Phase 1 (Mo 1-2): DB setup, Auth, Coach Mak v1, Design system

Phase 2 (Mo 3-4): Tier 2 onboarding, MemPalace integration, Assessment engine, 7-touchpoint cadence

Phase 3 (Mo 5-6): Job feeds, Matching engine, Dashboard, Touchpoints 5-6

Phase 4 (Mo 7-8): Coach Mak v2 (sponsorship), Pathway explorer, Document templates, Touchpoint 7

Phase 5 (Mo 9+): Beta testing, Performance optimization, Institutional partnerships, Public launch

10. SUCCESS METRICS & KPIs

Metric	Target	Measurement
Onboarding (Tier 1)	>80%	% users completing specialty + stage
CV Upload (Tier 2)	>60%	% Tier 1 users uploading CVs
Assessment Completion (7-TP)	>70%	% users completing all 7 touchpoints
Job Match Usage	>40%	% users viewing matched jobs
NPS (Net Promoter Score)	>50	Quarterly survey
Wellbeing Improvement	+15%	Assessment score delta (baseline vs Month 3)

11. TECHNICAL STACK

Backend: Node.js 18+ or Python 3.10+, PostgreSQL 14+, Express/FastAPI, AWS S3/Azure Blob, Redis, OpenAI API (GPT-4)

Frontend: React 18+, Redux Toolkit/Zustand, Tailwind CSS, Custom React chat + WebSocket, React Native or responsive web

Integrations: MemPalace API, LinkedIn, Indeed, BLS, Auth0/Firebase (OAuth, SSO)

12. SECURITY & COMPLIANCE

- TLS 1.3 in transit; AES-256 at rest
- HIPAA BAA with providers if handling PHI
- GDPR/CCPA: User consent, right to deletion
- MFA support
- Audit logging
- Quarterly security reviews

APPENDIX: GLOSSARY

Coach Mak: AI conversational mentor/coach/sponsor; primary user interaction gateway

Touchpoint: Scheduled engagement moment in 7-touchpoint cadence over 3 months

Career Readiness: Composite metric (Assessment + CV + Pathway clarity) assessing growth readiness

Invisible Work: Mentoring, committee, service work; Mak surfaces full value proposition

Pathway: Career track (Clinical, Research, Education/QI, Leadership)

Burnout Signal: Assessment flags of emotional exhaustion; Mak recommends resources

MemPalace: Persistent memory system for career history, preferences, goals

Job Match Score: Calculated fit % (Specialty×0.5 + Salary×0.2 + Location×0.2 + Growth×0.1)
